paperback. Book Condition: New. Ship out in 2 business day, And Fast shipping, Free Tracking number will be provided after the shipment. Paperback Pages Number: 185 in Publisher: China Environmental Science Press; 1st edition (January 1. 2005). Our country has experienced a water pollutant emissions concentration control and the goal of total control two stages. although the containment environment deterioration in the quality played a certain role. but because there is no quantitative correspondence between the establishment of pollutant emissions and water quality between. in fact. does not solve the scientific distribution of water pollutant emissions and. ultimately. the core of the water environment quality standards problem. Fundamental to achieve water quality standards will depend on the implementation of the total amount of emissions control system based on environmental capacity. But to ensure the effective implementation of the system. you must first scientific and accurate grasp of the region. watershed. and the city's environmental capacity. This study from the perspective of the use and management of the capacity of the water environment on the basis of the status of the scientific assessment of water quality of the environment. water quality objectives of the water environment function area. through the establishment of...
