Reviews

Certainly, this is the greatest work by any author. It can be writter in easy words and phrases rather than confusing. I am just happy to let you know that this is actually the greatest ebook we have study inside my individual daily life and may be he greatest ebook for at any time.
(Trent Monahan)

Strobe Witherspoon, United States, 2014. Paperback. Book Condition: New. 202 x 128 mm. Language: English . Brand New Book ***** Print on Demand *****.KIRKUS REVIEWS BEST INDIE BOOKS OF 2014 SELECTION In a dumbed-down, dystopic near-future America, high-tech tycoon Manny Kahn fights to save the nation from political pathologies brought about by his own creation, a ubiquitous online search engine. Witherspoon keeps the narrative as lean as an iPad and resists the gimmick of writing the thing in text-message shorthand. Though characterizations are often tweet-deep, the nonstop invention and wit spare neither the left nor the right. Sharp-toothed and Bluetoothed-gigabyte-size political and social satire for the wired generation. OTHER REVIEWS Paranoid nonsense. Witherspoon sounds like an out of touch Luddite with a superiority complex and I have deep concern for his mental state. Mitch Witherspoon, Strobe s son. Almost as good as my first novel. Horace Witherspoon, Strobe s uncle and author of Are There Chicken Nuggets in Heaven? Serious and silly, earnest and cynical. The struggle to balance national security and personal privacy comes alive in this heart-pounding debut novel. A clarion call to all who think clearing their Internet history is enough. As politics, technology, and commerce continue on their collision course, this book asks, are we ready ? Amber Witherspoon, Strobe s cousin and founder, I have no son. Richard Tricky Witherspoon, Strobe s Dad. 2026. furtl, America s once dominant technology conglomerate is bleeding money. Holospace machines out of China have transformed the way people do business on the Internet and furtl can t keep up. But there is hope. If furtl can get the US government to outlaw Holospace machines, their search algorithms, social networks, and proximity payment systems will live to see another day. All the government wants in return is unrestricted access to furtl...
