Excerpt: . . . suitable for vessels drawing 16 feet at m and n lake level. The total amount expended on the harbor to June 30, 1906, was 965, 676. 27. It is impracticable to separate the cost of construction and maintenance. During the past fiscal year no work was done except minor repairs. The old timber breakwater and pier need repairs, which can most advantageously be done with concrete. The maximum draft that could be carried June 30, 1906, at mean lake level over the shoalest part of the locality under improvement was 16 feet, and the usual variation of level of water surface is about 2 feet. Freight rates have not been affected by the project. The following table gives the total arrivals and departures, including tonnage, for the past ten years: For more extended information and map see Annual Report of the Chief of Engineers for...
