Reviews

An extremely wonderful ebook with lucid and perfect explanations. I was able to comprehend almost everything using this composed e publication. It is extremely difficult to leave it before concluding, once you begin to read the book.
(Kimberly Carroll)

LOGIC AND THEORY OF ALGORITHMS: 4TH CONFERENCE ON COMPUTABILITY IN EUROPE, CIE 2008 ATHENS, GREECE, JUNE 15-20, 2008, PROCEEDINGS

Springer. Paperback. Book Condition: New. Paperback. 596 pages. Dimensions: 9.2in. x 6.1in. x 1.4in. CiE 2008: Logic and Theory of Algorithms Athens, Greece, June 15-20, 2008 Computability in Europe (CiE) is an informal network of European scientists working on computability theory, including its foundations, technical development, and applications. Among the aims of the network is to advance our theoretical understanding of what can and cannot be computed, by any means of computation. Its scientific vision is broad: computations may be performed with discrete or continuous data by all kinds of algorithms, programs, and machines. Computations may be made by experimenting with any sort of physical system obeying the laws of a physical theory such as Newtonian mechanics, quantum theory, or relativity. Computations may be very general, depending on the foundations of set theory; or very specific, using the combinatorics of finite structures. CiE also works on subjects intimately related to computation, especially theories of data and information, and methods for formal reasoning about computations. The sources of new ideas and methods include practical developments in areas such as neural networks, quantum computation, natural computation, molecular computation, computational learning. Applications are everywhere, especially, in algebra, analysis and geometry, or data types and programming. Within CiE there is general recognition of the underlying relevance of computability to physics and a broad range of other sciences, providing as it does a basic analysis of the causal structure of dynamical systems. This volume, Logic and Theory of Algorithms, is the proceedings of the fourth in a series of conferences of CiE that was held at the University of Athens, June 15-20, 2008. This item ships from multiple locations. Your book may arrive from Roseburg, OR, La Vergne, TN. Paperback.
